Professional Summary

Final Year Computer Science and Engineering student with internship experience in Large Language Models (LLMs) and Full-Stack Web Development. Skilled in Python, Java, JavaScript, SQL, React.js, REST APIs, AI/LLM applications, Prompt Engineering, Data Preprocessing, and Cloud Deployment. Hands-on experience building and deploying real-world web and AI-based applications. Strong problem-solving, debugging, collaboration, and adaptability skills, with a strong interest in Artificial Intelligence, Software Development, Cloud Computing, and scalable technology solutions.

Technical Skills

Programming: Python, Java, JavaScript, HTML, CSS, SQL

Web Development: React.js, Vite, Node.js, Express.js, Spring Boot, REST APIs

AI & GenAI: Large Language Models (LLMs), Generative AI, Prompt Engineering, AI Agents, Retrieval-Augmented Generation (RAG),

Data & Libraries: Pandas, NumPy,

Databases: MySQL, MongoDB

Cloud & Deployment: Vercel, Basic Cloud Computing Concepts

Developer Tools: Git, GitHub, VS Code, Google Colab

Core Concepts: Object-Oriented Programming (OOP), Problem Solving, Debugging, API Integration, Full-Stack Development

Education

Sanjivani University, Kopergaon

2024 – 2027

Bachelor of Technology in Computer Science and Engineering

Final Year

Matoshree Institute of Technology, Dhanore

2021 – 2024

Diploma in Computer Science Engineering

SADP Vidyalay, Sogras

2019

Secondary School Certificate (SSC)

Experience

Ethara.ai

Jan 2025 – Mar 2025

LLM Intern

- Worked on Large Language Model (LLM) based applications using Python.
- Performed prompt engineering, data preparation, preprocessing, and evaluation for AI applications.
- Assisted in testing and improving AI-generated responses and LLM-based workflows.
- Collaborated with the team to build and evaluate practical AI and Generative AI solutions.

ByteSwap Solutions Pvt. Ltd.

May 2025 – Jul 2025

Web Developer Intern

- Contributed to front-end and back-end web development tasks and full-stack project development.
- Worked on debugging, UI improvements, feature implementation, and API integration.
- Assisted in understanding project requirements and implementing effective web-based solutions.
- Collaborated with the development team and gained practical experience in software development workflows.

Projects

AV Control System | React.js, Vite, FastAPI, Python, REST APIs, Vercel

2026

- Developed a web-based AV Control System with a modern React.js and Vite frontend and a FastAPI backend architecture.
- Implemented REST API-based communication between the frontend and backend for application functionality.
- Configured and deployed the project for live access using Vercel.
- **Live Demo:** av-control-system-vedant-2026.vercel.app
- **GitHub:** github.com/vedantaher200/av-control-system

RecoverAI – AI-Powered Revenue Recovery Agent | Python, LLMs, Prompt Engineering

- Developed an AI-powered revenue recovery application using LLM-based technologies and Prompt Engineering.
- Built an interactive web dashboard to provide revenue recovery insights and support decision-making.
- Deployed the application for live demonstration and testing.
- **Live Demo:** recoverai-iota.vercel.app/dashboard
- **GitHub:** github.com/vedantaher200/recoverai

- Developed an AI-powered educational assistant using Retrieval-Augmented Generation (RAG), LLMs, and FAISS to answer questions from educational study materials.
- Implemented document text extraction, text chunking, sentence embeddings, vector search, and context-aware answer generation with source references.
- Built and deployed an interactive application for AI-assisted educational question answering and learning.
- **GitHub:** github.com/vedantaher200/Educational-RAG-LLM
- **Live Demo:** educational-rag-llm-hle6xfkzstqx9qcwjyrhez.streamlit.app

Library Attendance and Management System | *Web Development, Database*

- Developed a digital system to manage student library attendance and records efficiently.
- Implemented student registration, attendance tracking, and record management functionality.
- Designed a user-friendly interface to simplify day-to-day library operations and student information management.

Personal Portfolio Website | *HTML, CSS, JavaScript, React.js*

- Designed and developed a responsive personal portfolio website to showcase projects, technical skills, education, and achievements.
- Optimized the website layout for mobile, tablet, and desktop devices.

Certifications

- **Database Foundations: Intro to Databases** – LinkedIn Learning
- **Oracle Certified Professional**
- **Introduction to Large Language Models (LLMs)** – NPTEL
- **Prompt Engineering** – Microsoft / Simplilearn SkillUp
- **Java Fundamentals** – Oracle Academy
- **Data Analytics Job Simulation** – Deloitte

Soft Skills

Problem Solving • Team Collaboration • Communication • Critical Thinking • Adaptability • Leadership
